**Test Case of Healing of Cripple With Leg Three Inches Short**

(In our effort to encourage faith and to stop the mouth of unbelief, THE VOICE OF HEALING is carrying test cases of miracles of healing, which are so outstanding of their kind, that no further argument can be made by those who claim the days of miracles have ceased. To show the universality of this great move of God, we choose various cases from the different men who possess the sign-gift ministry. The testimony below is that of Mrs. Harold Oman, of Manhattan, Montana, who was healed under the ministry of Rev. John F. Hauck. She was born a cripple, and at the time just before her healing on April 1, her left leg was at least three inches shorter than the right.)

Dear Brother Lindsay:

It is with great joy and victory of heart that I write you my testimony. I am 31 years old, and was born a cripple. For the last 23 years I have had to wear a two-inch extended heel, and a one-inch extended sole, on my left foot because of the extreme difference in the length of my legs. When tired or carrying a medium load, my left side would droop some three or four inches. At times I wondered how long I could keep on my feet.

My childhood was filled with memories of suffering. Being born a cripple, my parents spared nothing to get me well. Doctors differed in the cause of the condition. Surgery was performed in an attempt to discover what was wrong. Extreme exercises were ordered, but I only grew worse. The outcome was that the two bones pulverized by rubbing together. A surgical operation removed the fragments and much of the bone because of the worn condition. Further surgery helped me a little, but left my leg in a very stiffened condition. Beside all this, there was pain and deep-seated trouble in my spine and brain.

At this time I was afraid to go to a doctor further, and not even telling my mother, I called Evangelist John Hauck, who prayed for me. I had confidence and faith that God had heard his prayer.

On April 1, 1949, when I awakened from sleep, I had a stiff neck, and a little to the right of the back of my neck, a lump the size of an egg, deep inside. On the afternoon of the second, both legs ached and hurt, and also my entire spine, head and arms. I went to the bedroom in great suffering. I called my children in, thinking I was being paralyzed. My little boy, six years of age, came in and prayed for his mama and then ran out to play.

I tried to get up in the Name of the Lord. With great difficulty I picked up my Bible, went into the kitchen, crumpled into a chair, opened the Bible, reading with great difficulty, "For me to live is Christ and to die is gain." The Holy

Mrs. Harold Oman of Manhattan, Mont., before her healing. Here she wears her extended last which was worn to balance her body. She no longer wears it.

Spirit then came upon me, and I began to sing in the Spirit and dance and leap for joy. I felt as though I were going to be translated. The children came running in, and they weren't frightened, but with tears streaming down their faces they began to praise God. The Lord witnessed to my little son, David, to help me get my old high extended boot off. When it came off, the lump seemed to split and go out each foot after which David cried out, "Mama, you're walking like a human being!" This truly thrilled my soul as God had witnessed first to him. Then a voice spoke, "I'm healing your leg." I said, "Never let me doubt it, Lord." I ran to the field dancing, to tell my husband and brother-in-law, and the next day I had to go to the church in house slippers as all my shoes were extended ones. I could no longer wear them.

A doctor's report, August 2, and an X-ray shows my hips straight across from one another instead of at an angle. My blood and health are such as I never had in all my life before. I walk flat on my feet with shoulders level, good posture and perfect spine. Before without my extension, my knee would go out of place. I can do many things I could never do before. I can now touch the floor with
